### REGULATIONS CONCERNING FIRE ALARMS

First alarm to be given by striking four rounds on all bells

Second alarm to be given by striking three blows on all bells

Third alarm to be given by striking ten blows on all bells

1 One stroke at 12 M Washington time, and 9 p m every evening

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters

### INFORMATION FOR YOU

The key to your nearest fire alarm box, you will find in small box attached to door of fire box

To give an alarm, break glass in front of small box, turn the key you will find there, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately to the superintendent or at the Station House, the box out of order

Before ringing an alarm be sure that a fire actually exists

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell,

which, if heard before you pull, indicates that the alarm has been previously given

After the first alarm has been rung in, all other alarms or signals are given only by the engineers

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law

### SPECIAL NOTICE

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration
